This screenshot shows the 'Details' tab of the WAVE tool. It lists specific findings under three categories: Alerts, Features, and Structural Elements. Each finding is accompanied by an icon and a brief description. The right side of the screen displays the same forest photograph with accessibility highlights and a 'Code' button at the bottom.

## Conservation Page:

Summary –

The screenshot shows the WAVE web accessibility evaluation tool interface. On the left, the 'Summary' tab is selected, displaying various accessibility metrics. The results are summarized as follows:

Category	Count
Errors	0
Contrast Errors	0
Alerts	4
Features	7
Structural Elements	12
ARIA	7

A message at the bottom of the summary section reads: "Congratulations! No errors were detected! Manual testing is still necessary to ensure compliance and optimal accessibility."

The right side of the screenshot shows the Firefly Conservation page with a dark background featuring many glowing fireflies. At the top, there's a navigation bar with icons for Home, Map, Locations, and Conservation. A banner below the navigation bar says "Firefly Conservation" and "Learn what steps you can take to conserve fireflies". A small code icon is visible in the bottom right corner of the page content area.
